

### **7 PLACES |**

The 7 Places Jesus Shed His Blood is a full-cast stage production that brings to life the passion of Christ. It journeys through the 7 places Jesus bleed and identifies the impact they have on unbelievers and believers today. This traditional storyline is coupled with advanced lighting, sound, and cinematic elements that captivate audiences and distinguish it as a work of art.

### **OUR START |**

We started as a seed in the mind of Pastor Yaquis Shelley who desired to turn his Resurrection sermon into a “dramatization”. With a little creativity, and a passion for excellence, this simple idea was transformed. In 2015 we began our journey of bringing the word of God to life. With a heart to stay true to scripture, and a love for the element of surprise, we used unconventional means to keep audiences engaged and bring excitement to a traditional story.

### **OUR TEAM |**

Everyone involved in this project is a volunteer. It began with members of The Hand of the Lord International church who willingly gave their time and talent to support its success. Now, our amateurs are getting professional offers and the opportunity to exercise their skills in the working world. **This project has been life changing and we don't want it to stop with us.**

### **OUR VISION |**

Our vision is to create a Passion Experience where churches and non-profits can join together to produce and witness firsthand the power of the cross. What better way to mature this vision than to build its own location in the heart of Atlanta where viewers can see the gospel brought to life and experience Christ's Sacrifice in its truest element.
